

Switzerland

1850 to 1979

Notes on This Album Text

This album text presents the postage stamps issued by the Swiss Federal Post from 1850 through 1979. The Vaud and Winterthur issues have been deliberately excluded. However, images of these stamps are included in the image folder within the ZIP file to allow users to make custom adjustments.

The album follows a single, continuous chronological sequence, incorporating definitive stamps, commemoratives, semi-postals (surcharge stamps), airmail stamps, and ATM franking labels. This includes both souvenir sheets and their individual stamps. Se-tenant stamps are only included if they originate from full sheets, not from booklet panes, booklet sheets, or coil rolls.

Variations in perforation, paper, color, and gum are generally excluded. For example, issues originally printed on uncoated paper and later on coated paper are not distinguished.

Definitive stamp series with identical designs and consistent features (e.g., paper type, watermark) are grouped under the year of their initial release. Different printing types are noted. Supplemental illustrations help identify print types. Details such as control marks, watermarks, white or granite paper are referenced where necessary to distinguish the different variants.

The Back of the Book section includes postage paid, postage due, and telegraph stamps, as well as official stamps for Swiss authorities and international organizations based in Switzerland.

Stamp illustrations are in black and white and significantly reduced in size, minimizing visual distraction from the actual collection. These settings are adjustable in the AlbumEasy program. For stamps differing only in color but sharing design and denomination, color names are specified to aid identification in black and white.

This English-language version is formatted for US letter size (the German version is in A4). Format settings may be adjusted in the AlbumEasy source code, which could require minor layout modifications.

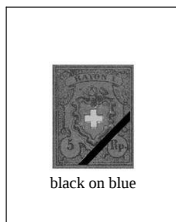

The text has been carefully compiled. Please excuse any remaining errors or occasional awkward phrasing, as English is not the author's native language.

This album text is provided free of charge exclusively for private, personal use. Users may modify the text for their own private, non-commercial purposes. Sharing the unmodified original privately and free of charge is allowed, provided this notice remains intact and all rights are preserved. Redistribution of modified versions, or any commercial use or distribution in any form, is prohibited without prior written permission from the author.
